WOMEN'S WELLNESS • HEALTH-TECH

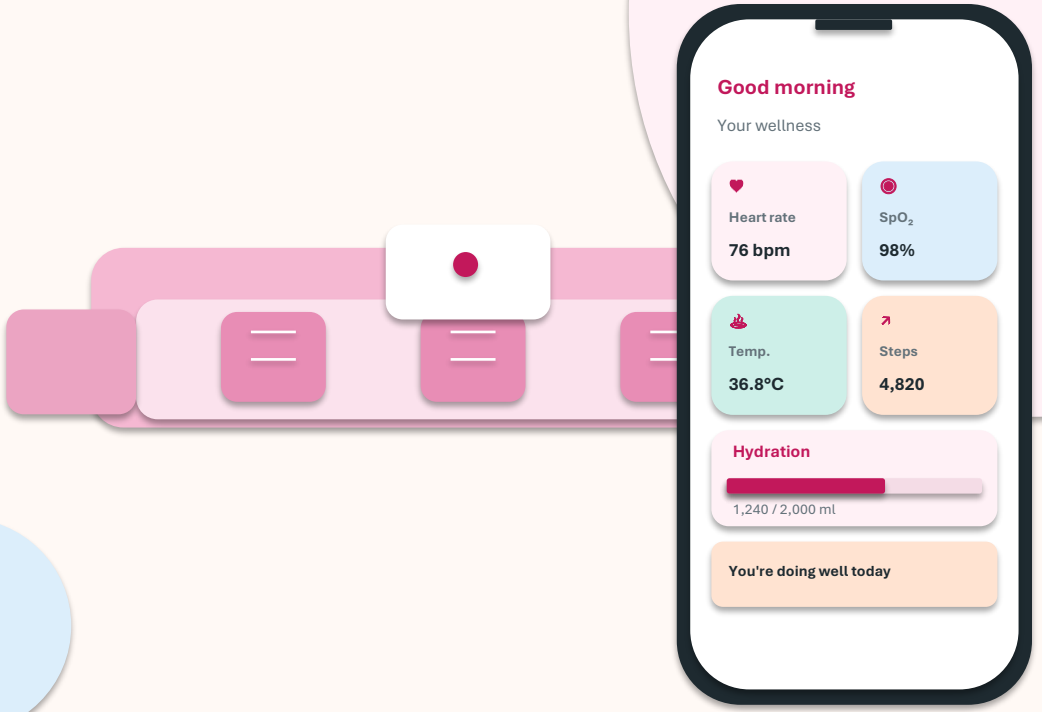

Smart Period Relief Belt

A comfort belt for periods & pregnancy, with gentle heat, soothing vibration and smart tracking.

Gentle Heat

Soothing Vibration

Smart Tracking

Comfort that moves with you.

Problem & our solution

The Problem

Daily disruption

Cramps interrupt study, work and everyday routines.

Scattered tracking

Pain, cycles and hydration live across disconnected apps — or nowhere.

Hard-to-find guidance

Reliable, age-appropriate information can be difficult to access in local languages.

Our Solution

One connected experience

A smart wearable belt with gentle heat, soothing vibration and body sensors, paired with a full women's health companion app.

COMFORT + TRACKING + GUIDANCE IN ONE PLACE

How it works & hardware features

01 Sensors on the belt

Heart rate • SpO_2
temperature • steps

02 ESP32 controller

Creates Wi-Fi network
“Smart_Relief_Belt”

03 Companion app

Reads live data
over Wi-Fi

04 Smart dashboard

Readings • alerts
therapy controls

BUILT AROUND COMFORT + CONTROL

Gentle Heat Therapy

Targeted warmth for comfort.

Soothing Vibration

A calming vibration mode.

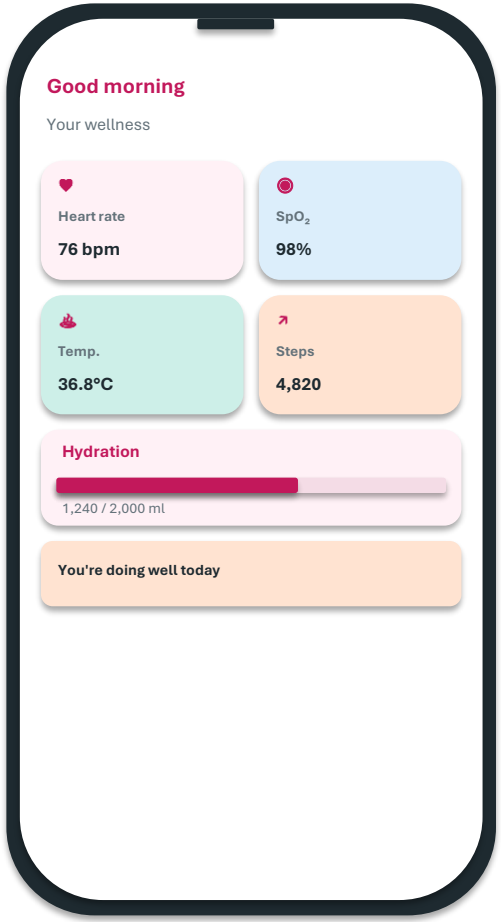

Health Sensors

Heart rate, SpO_2, temperature and steps.

Safety Cut-off

Heater disables above 39.5°C until the belt cools.

Everything at a glance, with safety first

- Live heart rate
- SpO_2 + temperature
- Steps + battery
- Hydration • 2,000 ml goal
- Personalised alert banners

THERAPY CONTROL

A calmer moment, on your terms.

Heater
Gentle warmth

Vibration
Soothing pulse

SESSION TIMER

5 min | 10 min | 15 min

EMERGENCY STOP

Pain level logged before and after therapy.

Track periods, pain, flow & hydration

Cycle & period

Log period dates and view cycle patterns.

Pain level

Record intensity and notice changes over time.

Flow tracking

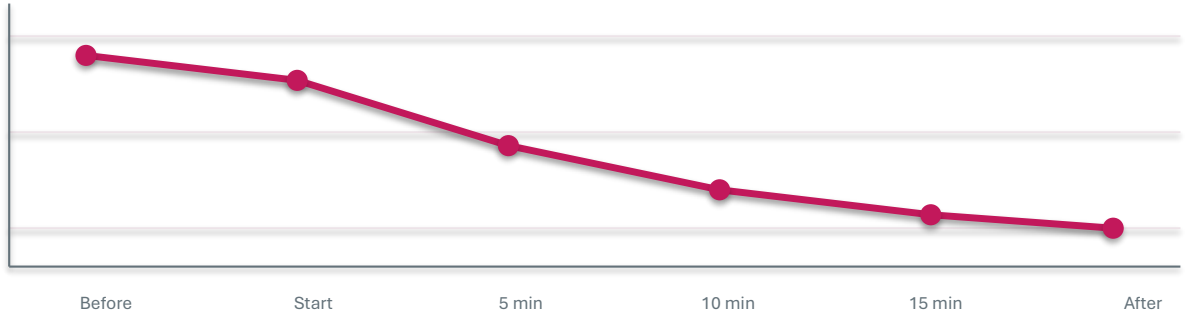

Choose light, medium or heavy flow.

Hydration log

Track water intake against a daily goal.

Pain level around a therapy session

Illustrative example • user-entered ratings

Cycle calendar

Ask anything, get safe, simple answers.

WELLNESS ASSISTANT

Why do I get cramps during periods?

Cramps can happen as the uterus contracts. Gentle warmth may help some people feel more comfortable.

Can I ask in Telugu-English?

Yes — ask naturally, in the language mix that feels easiest.

HELPFUL BY DESIGN

1. Answers on cramps, late periods, PCOS, hygiene and medicines
2. Understands casual typing and Telugu–English phrases
3. Stays focused on women's health topics
4. **Urgent symptoms trigger a clear “see a doctor” warning**
5. RAG retrieval backend with a built-in offline fallback

Supportive information — not a diagnosis or a substitute for care.

A practical wellness toolkit

Diet planner

PCOS-friendly veg / non-veg plans, BMI and calories

Exercise & yoga

Simple movement routines for different needs

Medicines guide

Clear medicine information and reminders

Precautions & myths

Practical precautions and myth-busting

Pregnancy care

Due date, trimester tips, daily checklist and warning signs

Nearby gynecologists

Find local specialist care

SOS contact

Quick access to an emergency contact

Printable health report

A summary to share with a doctor

One toolkit • everyday habits, informed choices and easier conversations with clinicians

Your data stays yours.

PIN lock

A private entry point for the app.

Local storage

Personal data stays on the device.

Backup & restore

Keep a copy and recover your records.

Clear boundaries

Wellness prototype — not a medical device.

Heating-belt safety

- Start with a low setting and short sessions.
- Never sleep while wearing the belt.
- Stop if discomfort, irritation or unusual heat occurs.
- Ask a healthcare professional if pregnant.

PREGNANCY PRECAUTION

No heat or vibration over the belly during pregnancy unless a doctor specifically approves.

Why it's different & what's next

FEATURE	HEATING PAD	TRACKER APP	SMART BELT
Heat therapy	✓	—	✓
Vibration	—	—	✓
Live body sensors	—	—	✓
